The season of love

So dark, so cold, no hope in your eyes, but I'm here, so hold on, I'll stay by your side, and I will go wherever you go, with me you're never alone, I believe I can fly, when we come together, it's a natural high when you bring me back to life, I believe we can live forever, I believe in the season of love, the season of love, of love, of love, the season of love. So long in my life I've never known love [never known love] but then you came and change my ways change my life no nothing's the same, I will go wherever you go, with me you're never alone, I believe I can believe I can fly when we come together, it's a natural high when you bring me back to life, I believe we can live forever, I believe in the season of love, the season of love, and still we found love, we come together and I know that's it's right I feel it inside, I believe I can fly, when we come together, it's a natural high when you bring me back to life, I believe we can live forever, I believe in the season of love the season of love, the season of love.
