Every night every day
I've be waiting for your love to come and stay
Now I found you on my way
Catch my breath close my eyes
I always imagine that you are by my side
Such feeling of desire

[Pre Chorus]

I wanna bring you closer
Watch you every single step
Romance between two lovers is what I am trying to get

[Chorus]

We are talking heart to heart
See the magic moment start
Hold you honestly we never be apart
We are searching for a sign
Let the passion be alive
And I promise you
You don't have to ask me why

Hold your hand the first time
We belong together
No one can deny
Cause your body reads my mind
Just call me, I'll be there
Open up your senses and throw away your cares
There is a lifetime for us to share

[Pre Chorus]

I wanna bring you closer
Watch you every single step
Romance between two lovers is what I am trying to get

[Chorus]

We are talking heart to heart
See the magic moment start
Hold you honestly we never be apart
We are searching for a sign
Let the passion be alive
And I promise you
You don't have to ask me why

We are talking eye to eye, face to face, heart to heart
See the magic moment start
Hold you honestly we never be apart
We are searching for a sign
To keep our love alive
Through the good times and the bad times
You'll be mine
