You say our parting is like losing a best friend
What kind of friend are you to never call at all
You say that people keep on changing without you
But that's not how I thought of you in the fall

Dream October, dream October back to me
Dream October, is that all that it could be
Dream October, see the sun set in your eyes
Dream October, as I say goodbye

Like the glacier at the top of a mountain
With the sun melting what left of the snow
And like the drop carried out to the ocean
It seems some things these days are meant to be let go

Dream October, dream October back to me
Dream October, is that all that it could be
Dream October, see the sunset in your eyes
Dream October, as I say goodbye

Yeah, sometimes I still miss you
Even though, it didn't work out in the end
Once in a while, I think back to when it all began

Dream October, dream October back to me
Dream October, is that all that it could be
Dream October, see the sunset in your eyes
Dream October, as I say, as I say goodbye
