If life's a gift, then who's to blame
Where's the love, in all the pain
You got to get it together, get it right
Say what you mean if it takes all night, I'm yours

In no time at all the world could fall to pieces
In no time at all our lives could come apart
We never know where life will take us
Be ready don't hide your heart

I see you there, but look away
Words to speak, but I can't say
What's on the tip of my tongue, so close so far
If you'd look in my eyes you'd see where you are, I'm
yours

In no time at all the world could fall to pieces
In no time at all our lives could come apart
We never know where life will take us
We never know where life will take us

Don't let this get away
Don't let this get away
Don't let this get away

In no time at all the world could fall to pieces
In no time at all our lives could come apart
We never know where life will take us
We never know where life will take us
Be ready don't hide your heart
