v1:

so lost,
still i see you,
your wiping away my tears,
your taking away my fears,
and im...so lost,
but there you are,
fixing my problems,
and making it easy for me to breath,

C:

where do you come off,
making your way back here,
how can you tell me that,
this love has nothing to fear,
all of those moments lost in the tears i've cried,
feelings are broken down,
in everything i hide,

v2:

you love me,
but your not sure,
tearing my heart up,
and throwing it back at me,
and...you told me,
it wouldn't mean a thing,
but deep down i know you,
have never been like this,

(chorus)

oh...i don't know where to turn to,
and i don't know where to hide,
i hear your voice and i miss you,
it's not fair...i miss you,

(chorus x2)
