v1:my hearts racing,  
fingers shaking and i,  
can't seem to think straight,  
when your around,  
my lips are trembling,  
the fear of getting hurt,  
i'm always pacing cuz i,  
can't seem to go one day...without you,

v2:my voice stops,  
my heart beats faster..and i'm falling,  
falling down,  
all of time stops,  
and my love grows stronger,  
facing my fear and your love,

c:cuz thats how it starts when you fall in love,  
always getting hurt then i get back up,  
and when i saw your eyes,  
then i knew right from the start,  
everything would be okay.

v3:the day is ending,  
the sun is going down,  
my head is racing,  
and your on my mind again,  
you draw me closer,  
everytime i see your eyes,  
feelings getting stronger and i can't control myself,

(chorus)

v4:you are...on my mind,  
baby...all the time,  
running...circles around my head,  
like there is no ending.

(chorus x2)
