"All I Have"

Oh it's now or never - it's no empty way
I will stay forever - babe what can I say
I miss you like crazy - where did you sleep last night
Nobody knows you baby, please stay by my side

And all I have, and all I need, and all I want is you
tonight
And all I see, and all I feel, is just holding you so tight
And all I miss, and all I dream, and all I want is your
sweet love
And all I know, and all I say, is that I can't get enough

My love is getting stronger - my love is here to stay
I can't wait no longer - baby make my day
Oh tonight I'm lonely - so lonely without you
Know that you're the only - my heart is true

All I miss is you, where ever I go and whatever I'll do
