This place used to be where I come from
Misplaced, knew about it for so long
Hold on, there's a feeling when it's getting good
We make mistakes

Please don't bother me about living with your brother
in an old RV
and shaking hands with a chokehold
So far I can say I'm getting by
Born here, guess it's where I'm gonna die
Hold on, there's a feeling when it's getting good
We make mistakes

Please don't bother me about living with your brother
in an old RV
and shaking hands with a chokehold
