Oh lady, i'm close to lose you  
You're burning up my life, more and more  
Oh lady, i can't forget you  
I know i can't survive, like before  
Oh lady, i'll always miss you  
Oh i will swear to you that i love you

Chorus  
From coast to coast  
From east to west  
I know for sure  
You are the best  
Why does it feel so good with you  
Don't leave me here, what can i do?  
My world is in your hands, you'll see  
I love you till eternity

Oh lady, if this is heaven  
I'm not afraid of hell, i'm telling you  
Oh lady, my heart is lonely  
I know the time will tell, i tell the truth  
Oh lady, i'll always miss you  
Oh i will swear to you, that i love you
