I saw her eyes-like rain in May
A Paris-night-Champs-Elysee
A flickering night-an old cafe
Oh should I run away?
A one night stand,a small hotel
She broke my heart,heaven and hell
I was so wrong,she knew it all
Now I'm waiting for her call
Baby,I'm no Rockefeller
I'm no fortune teller
I don't promise you my heart
Baby,I'm no Rockefeller
Baby but I tell ya
We can try a brand new start
Oh I swear to you(I swear to you)
I'll never make you blue(I make you blue)
You are always in my heart,for sure
I took the plane to JFK
An endless flight,I have to say
I miss that girl,more than my life
Will this love survive?
Back to the plane,to Charles De Gaulle
She was my heart,she was my soul
I know for sure,she's good to me
The rest is history
