Oh, baby when I see your eyes
I feel like I'm in paradise
My heart is beating just for you
Don't play games with me
Tomorrow there's another day
I'm begging you, oh, baby, stay
You said to me you had to go
But I really know
You said to me the time will show
But I really know

One day you're knocking on my door
And you wanna come in
All I wanna do is just everything
Save a little room in your lonely heart
I promised - you will be my baby
Oh, tell me, you'll never make me lonely
'Cause you're the one and only, girl for me

Nobody knows the way I feel
I promised you my love is real
It's larger than the universe
I promised from my heart (together)
Together till the end of time
Oh, baby you're always on my mind
You said to me you have to go
But I really know (really know)
You said to me the time will show
But I really know
