You are so far - mmmm
Oh like the star - mmm
Oh I feel inside - I miss you tonight
Do anything to make your mine
A lonely night - mmm
The stars shine bright - mmm
I have an idea, to have you near
Here just by my side

Refrain
Send me a little sms to my heart
Send me a little sms like I do
Oh baby I will never tearing apart
Cause my heart, is missing you
Send me an s, send me an m
Send me an sms to my heart
Send me an s, send me an m
Send me an sms and we try a start

Hey little girl, mmm
It's a lonely world, mmm
Hear my sos, babe I confess
Cannot live without your love
I'm lost in space - mmm
Wanna see your face - mmm
Where ever you be, send some words to me
Send a message to my heart
