Oh never say never, if you want to be clever, I'll die for  
you  
And always and ever, we're staying together, oh that is  
true  
I'm tossing and turning, cause my heart is burning  
Tell me your heart will go on  
And if you will be clever, it's always and ever, I'll die for  
you

Be my taxi taxi girl  
In my secret taxi world  
Be my taxi taxi girl  
It's a strange and secret world  
Taxi taxi lady, just for one day  
Girl don't make me crazy, oh come what may  
Sexy taxi lady, miss you tonight  
Girl don't make me crazy, stay by my side

Oh never say never, this time it's forever, I'll die for you  
How deep is the ocean, I'll show you devotion, I'll cry  
for you  
I'm getting much stronger, I can't wait no longer  
Tell me this love will go on  
And if you will be clever, it's always and ever, I'll die for  
you
