Greg Valentine:

Verse One:

Looking back through time
from teh corners of my mind

I see you standing there

And baby how I miss you

and how much I need to kiss you

run my fingers through your hair

Chorus: But then again it's just my imagination

being close to you was such a sweet sensation

Then we had to have that terrible confrontation

And now all I can do to help this situation

Day dreamin' takes me where I want to be

Daydreamin' lets me have you here with me

Verse Two:

Girl if you know all that I've been going through

you'd have a change of heart

But come rain or shine

you're foerver on my mind

in my life-you're a part

Chorus: But then again it's just my imagination

being close to you was such a sweet sensation

Then we had to have that terrible confrontation

And now all I can do to help this situation

Day dreamin' takes me where I want to be

Daydreamin' lets me have you here with me

J. Mega

Verse Three:

Love what's yo cum?

We on gin and marijuana

Mega the author pushin' upon on ya

Keepin' ya fonder, this All City sage minus the drama

sex often sweaty in suana

It's how I do mines

you got a fetish for niggas with legal letters who
smoothin' out the edges

and keepin' ya box the wettest

You see it's Medina child

plus the Bed Stuy style with crazy know how

So love how you gonna stop us now?

Just consider this for your cliteruos

Mega serious, bound to get you open and delerious

I'm buyin shit

I'm not a playa, I'm a slaya

Looked her up and down (and said hhhmm...)

I take her to the mack lo

where we can pack slow

I rub your back slow but that go quickly according to
how act yo

Intentionally you're enterin' 'Nique once the idol

All City all stuck up in your memory

You know I want you girl

You know I need you girl

Come back come back baby take a ride in my Mercedes
Benz

You know I need you girl

Cuz you're my only world

come back come back honey

and I'll give you all my money

Chorus X 2:Day dreamin' takes me where I want to be

Daydreamin' lets me have you here with me
