Not open, throw a simple gesture, catch em while  
they're listening,  
oh oh oh when your lost they're found, make another  
round make another good round.  
Living lonely loving idols only losing in time,  
kick it off with a frown and go to bed with a smile  
oh oh UP but your gonna go DOWN, make another  
round make another good round.

fast foward back to rock bottom, get a grip on, gotta  
get it slowing down

Another lover, make it on the double,  
a closed mind, no wonder your losing your touch.  
I see your little insomnia, its adding up, give em up

Can we dance? maybe now you get the picture,  
you should have seen me coming now you've seen it all  
before.  
Instigating intimate avoiding contemplation,  
you should have seen me coming now we're all coming  
out

Not open, leaving little room for improving on the  
falling of the  
ladies and the gentle movement of your heart when  
your blood stops flowing  
Can I interrupt for fictional novel or a written exam?  
Pick em out, put em down, put em all to the test... inside  
your out

not open, we're falling to our knees for the ladies and  
gentlemen.

Another lover, make it on the double,  
a closed mind, no wonder your losing your touch.  
I see your little insomnia, its adding up, give em up  
Another lover, make it better double it up,  
A third time is a charm but it isn't enough  
I see your little insomnia, its adding up, give em up

Don't close your eyes, easy to lose if your blind,

they can't make it better even when their timing is right  
your glowing maybe he could be your love at first sight  
open your eyes

as for the idols a craftsman will cast it, a goldsmith will  
overlay it with gold.  
Haven't you heard?

fast foward back to rock bottom, get a grip on, gotta  
get it slowing down

Searching in wrong places, searching in wrong places,  
way to keep you stranded leaving messages in bottles,  
resting all faith in high hopes.

This is our life... Your missing out, losing, blaming  
others for all your faults.  
This is our life... If your never gonna change then you'll  
always get the same results.
