Pale moon midnight
Sulphur skies cover the stars
Our souls now entwined
Mighty sylph take our scars
To spot a flicker
Of a vampyric devine
The bloodtrack tricked her
It led her to the sunshine site
An ardent sensation to dread
Has now taken her unlife
Into a botomless abyss she fled
Toghether with her the myth has died
We carried on our journey
To discover what we really are
Our bodies never burried
Yet, we were deadÂ...long before
Ye crawl underneath his tyranny
For Lamia showed us the way
Now vampyrism has been freed
Dark has come to plunder the vale

(Vae Victis!)

Fear me now, tremble!
Can't baptise me away
From sunset 'til sunrise
I'll be setting free my rage
I hunger for blood, need to feed
I will die if I don't bleed
That hungry feeling is my growing greed
Locusta quench my thirst
As the last drop is spilled
Then wilt thee brake this curse
For then my journey's fulfilled
Then slowly close my coffin
The cold one, I was born in
In my tears I dissolve
All what's left is my secretly grin
Jay Had to remember my name
Howl these words at every gothic sin.
