Heaven is for every one, if you're old or if you're young  
Baby, you can't kiss the past goodbye  
When I saw her in the night cafe, just near by the  
Champs-Elysees  
She looked so sad, she breaks my heart

She told me, she will take the car and drive to an  
unknown star  
She falls in love with someone else, not me  
And I know my tears will never dry, when I heard her  
say just, goodbye  
I never said she's guilty, guilty for my love

I'll never fall in love again, I'll never fall in love again  
I will never give my heart away till my life will end  
Baby, never fall in love again, never fall in love again  
There will never be another you, girl, please  
understand

It takes a woman to make a man, sometimes it's hard  
to understand  
She took my heart away and let me go  
And I'm too shy to let her know, she's like a rose in the  
snow  
I wanna be her sunshine, the sunshine to her life

I never knew, heaven could speak, but in my heart,  
there's a deep  
There's a deep deep feeling, just for you  
And I know these tears will never dry, when I heard her  
say, just goodbye  
I never said, she's guilty, guilty for my love

I'll never fall in love again, I'll never fall in love again  
I will never give my heart away till my life will end  
Baby, never fall in love again, never fall in love again  
There will never be another you, girl, please  
understand

I'll never fall in love again, I'll never fall in love again  
I will never give my heart away till my life will end  
Baby, never fall in love again, never fall in love again

There will never be another you, girl, please  
understand, understand
