Did I ever ever told you
That I miss you every night
And I cannot find my sleep, girl
If I cannot hold you tight
Did I tell you when you left me
There's no sun up in the sky
And I cried so many times girl
Oh just Like a broken toy
Oh I cannot stand the pain girl
It was over, I can see
And now you told me lady, there's a chance for you
and me

Just close your eyes (close your eyes) - And stay with
me
There is a place - where I wanna be with you
Just close your eyes (close your eyes) - take me in your
heart
I will love you pretty baby, if you try a start

Did I ever ever told you
That I dreamt of you last night
Is there anything I can do
'Cause I wanna hold you tight
Did I tell you I was dying
When you turned away from me
Took away my sweet sweet heaven
And I lost my destiny
Oh I cannot stand the pain girl
It is over, I can see
And now you tell me baby, there's a second chance for
me

Just close your eyes (close your eyes) - And stay with
me
There is a place - where I wanna be with you
Just close your eyes (close your eyes) - take me in your
heart
I will love you pretty baby, if you try a start
