"My Dark Lady"

Visit "[My Dark Lady](#)" on MotoLyrics.com

My shadow, over the wall
reminds me of your soul

Breeze on my neck
The coldness of your touch

Night is your perfect dress
Death is your favourite scent

Be my best nightmare
Be my dark lady

As you step into the room
Everything turns into gloom

Your kiss on my lips
Drives me right to the grave

Night is your perfect dress
Death is your favourite scent

Be my best nightmare
Be my dark lady
Atramentous My Dark Lady
