Please, I wanna feel your angst
Please, I wanna feel your power
Please, I wanna see the darkness
that lies inside your soul

X2

Your love is like a velvet whip
(whip me)

Your love is like a velvet whip
(whip me whip me)

Please, I want you to take my soul
Please, I wanna be under your control
Please, I wanna share your cold love
and feel it over my skin

X2

Your love is like a velvet whip
(whip me)

Your love is like a velvet whip
(whip me whip me)
