# "Long Way From Paradise"

Visit "[Long Way From Paradise](#)" on [MotoLyrics.com](https://MotoLyrics.com)

We got loud guitars and a rockin' band  
Ain't gonna stop until you understand  
There's a whole world of evil in the heart of man  
It's a far, far cry from Caanan's land

It's a Long Way from Paradise

We got carbon monoxide and acid rain  
Designer drugs that can melt your brain  
We got drive by murder, the mark of Cain  
Neo - nazis and the K.K.K.

It's a Long Way from Paradise

Long Way from Paradise  
Long Way from Paradise  
You can play it safe, or role the dice  
but the heart of the city is as cold as ice

It's a Long Way from Paradise

You know the thief on the cross didn't have much time  
Had a talk with Jesus on the day He died  
He said "Forgive me Lord for a life of crime"  
Got a guarantee in the nick of time

He was a Long Way from Paradise
