Do you believe in love at first sight?
I knew right away right when you walked into the room
there was somethin' about the sparkle in your eyes
that swept me away, im floating everyday
I get nervous when you come around
my knees get weak and I cant sit still (no baby)
I dream about you night and day
and I wanna know, do u feel the same way

From the first time, I laid my eyes on you
I caught a crush on you, dont need a cure
from the first time, I laid my eyes on you
you stole my heart oh its true, for sure
Mmm cant stop thinkin bout cha boy no...
your the ray of sunlight in a winter storm o baby
the world's a better place with you here
and everyday I long to have you near..
heartache,passion,and frustrations what you give me
baby
I radiate with joy when I hear your name
the robin sings sings a masterpiece of love
since I first saw you, you been all I'm thinkin' of

From the first time, I laid my eyes on you
I caught a crush on you, dont need a cure
from the first time, I laid my eyes on you
you stole my heart oh its true, for sure
