Many years ago  
when you knew that I would be  
you held my hands and walked with me  
made sure the light would let me see

It was plain to see, although you didnt have to say  
I felt your love inside of me, every time and every day

And now I know, that you taught to me to be this way  
to lead a life of one who cares by spreading love to  
people everyday

So now I'll try to be the girl I long to be  
cause I know that u are always there, guiding  
me,protecting me

chorus:  
Somehow I knew, you'd guide me thru and thru  
a girl who's lost in the dark, I look for only you  
You are the only one, that showed me how to live  
an angel with a loving heart, with so much more to give

I know tht you are there for me

I learned from you what is pain and humility  
you cared enough to share with me, what a girl may  
turn out to be

So now I'll try to be the girl I long to  
cuz I know that you are always there, guiding me,  
protecting me

chorus:

I know that you are there for me  
even though you're not around  
even when you can't be found
