-chorus-

love is like a bullet
straight through the heart it goes
no one knows how to stop it
never goes the way you want it
so i understand
what i didn't understand before
so i realise
what i didn't realise before

-verse-

i know, i know everything has gone
i know, i know it won't be the same
i know, i know everyone has gone
i know, i know that i'm all alone
where did you go? you left me waiting
where did you go? i'm suffocating
where did you go? now i'm all alone

-chorus-

-bridge-

you left me waiting
you left me all alone
