-verse1-

"head's too loud, music's throbbing"

"painkillers just aren't working"

he's on a one-way road

but he don't know where it goes

-chorus-

he's taken all his chances

but everything's gone wrong

he doesn't want the pain

you know he's going insane

-verse2-

stuck in rut, trying to escape

he's lost his mind, its too late

there's one way out - his only fate

he's leaving the world, cos it's not so great
