"Peace Of Mind"

Everybody says that it's not hard to see,
What you would like to be,
Or is it just to me?

What you'd like to take and
What you'd like to leave,
Do you know our love is free?

People all around me say that I'm a fool,
But it's so hard to choose,
When it's just up to you.
Have you ever felt your life is a tragedy?

I was told to play the game,
But I didn't have a name,
And I waited all my life to find my role.

Have you ever felt like you had to be
Like everyone you see?
So you know how to feel.

Did you realize it?
Did it set you free?

Do you know what my mind is made of?
And I don't know it too maybe,
Gotta get rid of these ringings on my soul.

Will you take some time, (some time)
Before you draw the line, (draw the line)
Will you leave me blind?
Cause I can't give you what you need.

When you're crippling inside, (inside)
When you're feeling down,
Can I make you change your mind?

People all around me say that I'm a fool,
But it's so hard to choose,
When it's just up to you.
On and on I feel my life is a tragedy.

Will you take some time, (some time)
Before you draw the line. (draw the line)
Will you leave me blind?
Oh caz I can't give you what you need.

When you're crippling inside, (inside)
When you're feeling down,
Can I make you change your mind?

Take some time, (take some time)
Before you draw the line. (draw the line)
Will you leave me blind?
Oh caz I can't give you what you need.

When you're crippling inside,
And you're feeling down,
Won't you leave me blind.
But I can't give you what you need.

Take some time,
Before you draw the line.
Will you leave me blind?

When you're crippling inside,
When you're feeling drowned,
Let me bring you a peace of mind.
