We rise our arms to greet the decay.  
The self-destruction is our way.  
We feed the beast with our own flesh.  
We let (need?) him to drink our blood.

I've found the nest of the beast  
from the deepest depths of my soul.

You are waiting the sun that will never rise.  
You are waiting the dawn that will never come.  
But I've faced my demon (have I?)  
and together we fight.  
I've faced my demon (have I?)  
and together we die.

The path we have chosen in the path of destruction  
and pain. So let's drink this bottle of poison.  
We have set up the flames that lick the sky.

We have made the pilars of heaven  
crash down to the ground one by one.

Beast, awake! The world is yours!  
We trust you more than our illusion of happiness.  
Please burn these stagings of the paradise.  
Lead us into the devastation.

Beast, awake! The world is yours!  
We trust you more than our illusion of happiness.  
Please burn these stagings of the paradise.  
Lead us into the devastation.

The beast is awake!

We color the seas with blood.  
We hail the dawn of decay.  
We crush the heaven.  
The season of light is end.  
The beast is awake.

Awake!
