Verse 1

I look outside, don't know where to hide
Up and Down, All Around
I see You now, I see You Clear
Don't know why, we're not here

Chorus

Together As One (4x)

Verse 2

I gave you the world, But you did not take
Everything, That you wished for
Why are we, Afriad to see?
What are we, can we be?

Repeat Chorus (4x)

Verse 3

I Still Look Around, Up and down for you
The picture of us, is fading away
To a place in time, That is not good
I don't know why, We are not
