"Say So"

So out of touch - out of bed
oh get out of my head
its a rush - to the tongue
oh look what you've begun
with a word - twist the truth
and only you

If you say so if you say so if you say so
If you say so
you know you know think that you know when you say
so
oh you say so
woh woh woh OK
Whatever you say
If you say so if you say so if you say so
if you say so

Tear - at my heart - with a lie
with your fingernails of ice
And I can't - compensate
cause your turning it your way
every bone in a rage -In a rage

So out of touch - out of bed
oh get out of my head
its a rush to the tongue - you and only
