No one told me the way I should forget, you left an
broken heart

Lost and lonely, the heartache goes on
You were the only man I loved, but you beat me to
oblivion

Now the scars remind me whut you have done

It still haunts me
There's a silence where you used to be
It still disturbs me
Just an vacant hole in my history
It still haunts me
Oh the evil ways you beat the shit out of me

You're still haunting me
You're still BEATING ME
BEATING ME, BEATING ME, oh
Haunting me, oh
It's still Haunting me, oh
