Chorus - Come over and see its the first day of today I
will be the person you want me and everyday i will wake
when your not awake and strive to be the person you
want me to be

Us two we will always be together I will always be there
stuck to you like leather we will be together fir the rest
of our lives I will be your man you will be my wife we will
have to kids we will have the best family that we ever
did ever made in the history of this world they will look
up on us on this world

Now look into my eyes tell me what you see is it the
truth or am I lying to you not me tell you what I see I see
a good ball who gone try to play me try to tell me that I
can't realy be what I want to be In my mind now I'm
thinking all the time well it's the first day of the month
ima be what you want me to be

Why cant I think for myself why can't I think why can't I
think why can't I think why can't I think why can't I Think
why why can't I think why can't I think for my self fir my
self all the time I gotta freestyle I gotta tell them how I
feel in my mine I can't god back I can't hold back Im
feeling like I'm bout to crack Im bout to crack
