Chorus - Come over and see its the first day of today I  
will be the person you want me and everyday i will wake  
when your not awake and strive to be the person you  
want me to be

Open up your eyes then you will see what I want to be is  
what you want me to be I will always be there always by  
your side never ment to fly always there to ride you will  
be my wife we will be together for the rest of our lives  
we will never hold back you will be my lady and you'll  
drive me crazy

We will be the best nothing ever less i will give you  
evrything that you deserve you be my baby reserved  
for the rest of my life I will be you man you will be my  
wife I will never let you down I will always be the man  
you want me to be which is not me

I will always be there always by your side never ment to  
fly always ment to ride you will be my wife we will be  
together for the rest of my life we will never hold back  
you will be my baby you will be my lady and you'll drive  
me crazy we will never hold back you will be my baby  
you be my lady and you'll drive me crazy
