I walk along the garden  
A place I don't recall  
I dream about a figure  
A voice surrounding all  
Weeping willows standing tall  
I try to reach up but I desperately fall  
I travel towards a sealed destination  
Heading for a new creation

Be as you want to be  
See what you want to see  
Awake my love  
Next to me...

She was a heathen  
Where she is - lies Eden  
The serpent smiled - an apple fell  
He had her under a wicked spell

Be as you want to be  
See what you want to see  
Awake my love  
Next to me
