"But I Want You"

If I wanted sunshine I would go to Spain
If I wanted roses I would pray for rain
If I wanted drama I would head for the stage
If I needed a mama I'd stop acting my age
But I want you
But I want you
If I wanted stability I wouldn't reach for the sky
If I wanted humility I'd stagger into a church
If I needed to fit in I'd find a nine-to-five way to die
If I wanted anything else you wouldn't hear me beg
How I want you
But I want you
But I want you
(sax solo)
But I want you
But I want you
But I want you
But I want you
