~World War~

Take me to the battle
Make me strong for battle
Take me to the battle
Make me strong for battle

Silence seems to be outside
from the spiritual existence
But there's a war in the spiritual existence
Battle until the until the new dawn
The new kingdom

World War!
Preparing to war
We never gonna fall
World War!
It's a World War
World War!
Pain and sorrow won't stop us now
World War!
In this battle our God
is the only sword

Silence seems to be outside
from the spiritual existence
But there's a war in the spiritual existence
Battle until the until the new dawn
The new kingdom

World War!
Preparing to war
We never gonna fall
World War!
It's a World War
World War!
Pain and sorrow won't stop us now
World War!
In this battle our God
is the only sword
