[Lyrics: K. KIA & M. TANGSHIR]

Confess now, I chose this fate  
Colors change, thousand faces  
Kind faces, all in disguise  
Abandon all the lies  
Join, here we rise  
Higher steps wait for me  
I will ride in path of glory

A perfect pattern, not lower  
No will, but with power  
A sacred lie leads to control  
Pulling down my own strings  
Someone shake my wooden wings  
It's true, I'm just a toy but I'm so skilled in my role

Remember it well, they taught me with insist  
Blindness is the best heaven's gift  
From then, in truth I'm blind  
So stronger in will and mind  
Truth is kind of contrast  
Not myself, taught me just to be  
The matter: to be or not to be  
From then, I'm not on my own  
Buy nothing sold my soul  
Man needs to deal for existence

Dance with us, dolls are dancing in selfdom funeral  
Mirrors all lying, inside and outside antithetical  
Here is battlefield, fight until selfdom will be fallen  
Controls denied, well done all you pretty dolls

I don't know, what happens at the end of the day  
Maybe someday earth throws us away  
Instinct, God's true mistake  
They are all a bunch of suckers  
Lost and trapped, a few clockers  
We will scream with agony  
No one doubts in your victory  
(Kill our enemy)

Dance with us, dolls are dancing in selfdom funeral  
Mirrors all lying, inside and outside antithetical  
Here is battlefield, fight until selfdom will be fallen  
Controls denied, well done all you pretty dolls

If earth bears them more
