Sitting here thinking of what life could be
Getting tangled in knots, just need you to loosen Up
the strings
Close my eyes, wanting you to hold me
Just seeing you with her
Boy, it gets harder to breathe

Notice me
(Why can't you) Notice me?

I'm the girl that you want
The one that you need
The girl you'd want to hold
And never set free
It's crazy
But I know that deep down inside you agree
I'm the girl who'll rock your world
You know I'm heaven sent
It's in the stars that we're meant to be
You'll see
That you are so much better off with me

They say that we're not meant to be
But everything will work out if we just believe
Two kids, one heart
Tell me what you're thinking of

Notice me
(Why can't you) Notice me?

I'm the girl that you want
The one that you need
The girl you'd want to hold
And never set free
It's crazy
But I know that deep down inside you agree
I'm the girl who'll rock your world
You know i'm heaven sent
It's in the stars that we're meant to be
You'll see
That you are so much better off with me

Hand in hand
Don't pretend
Cause we are unbreakable
Forever invincible
We will make this simple

I'm the girl that you want
The one that you need
The girl you'd want to hold
And never set free
It's crazy
But I know that deep down inside you agree
I'm the girl who'll rock your world
You know I'm heaven sent
It's in the stars that we're meant to be
You'll see
That you are so much better off with me

I'm the girl that you want
The one that you need
The girl you'd want to hold
And never set free
It's crazy
But I know that deep down inside you agree
I'm the girl who'll rock your world
You know i'm heaven sent
It's in the stars that we're meant to be
You'll see
That you are so much better off with me

You are so much better off with me
