Do you know how much our love is worth?
Cause I don't
Would you ever change for someone that you love?
Cause i won't
So many questions in my head
So many things still left unsaid

Yeah, you said that it don't matter
But the little things matter the most
Shut up, get down, stop talking
Here's my say, here it goes:

You were using me, I never cared
They say we were the perfect pair
Vut it all comes down to what is real inside
You've always sucked, you fake, you cheat
All you cared about was popularity
But in the end our ends will never meet
It's over
And I'm over it

I'm not going to let you throw me down
I'm gonna raise my voice
I'm gonna twist you around
You said to me that you'll change
I said that I'd wait
But now I'm still waiting for that day

I will never be your prom queen
Cause I never wanna see you again
You will never say what you mean
Cause you never did back then

You were using me, I never cared
They say we were the perfect pair
Vut it all comes down to what is real inside
You've always sucked, you fake, you cheat
All you cared about was popularity
But in the end our ends will never meet
It's over
And I'm over it

I'm over your cries
I'm over your lies
I'm outta your life
So don't even try

You were using me, I never cared
They say we were the perfect pair
But it all comes down to what is real inside
You've always sucked, you fake, you cheat
All you cared about was popularity
But in the end our ends will never meet
It's over
And I'm over it
So just get over me
