Verse 1:

These words are so dear to me  
Blended like a symphony  
They are the last words that he said  
Before I chose to forget

Verse 2:

These rules are so clear to me  
Woven like a tapestry  
They are the rules that bind my heart  
Dividing end from start

Pre-chorus:

All my memories surround me  
They take my life away  
And everything I knew is different  
In each and every way

Chorus:

An "I do" and adieu  
And I'm wanting to forget  
No I love you  
When I leave you  
With not a tear  
Of one, single regret

Verse 3:

The past is now lost to me  
Faded like an inchoate dream  
Though my memories have all but gone  
Deep inside love still lingers on

Pre-chorus:

All my memories surround me  
They take my life away  
Everything is different

In each and every way

Chorus:

An "I do" and adieu  
And I'm wanting to forget  
No I love you  
When I leave you  
With not a tear  
Of one, single regret

Bridge:

I will always love you  
I'll never leave you  
You and I, together  
For now and forever

I'll never love you  
I'll will always leave you  
You and I, never  
Meant to be, ever

I love you  
I loved you  
Always and forever  
I love you  
I loved you  
Together, you and I

Chorus:

An "I do" and adieu  
And I'm wanting to forget  
That I love you  
When I leave you  
With not a tear  
Of one, single regret

Outro:

I don't regret it  
I just have to forget  
All we've known  
It's just willful amnesia  
And it's gone  
And it's gone
