"Conscience Where Were You"

Visit "[Conscience Where Were You](#)" on MotoLyrics.com

You came to me this mornin' several hours late
I looked for you last night she would not wait
You tell me I've been cheatin' your voice cuts like a
knife
But conscience where were you when I needed you last
night

Her lips held on like honey her eyes were secret blue
While you were gone my arms were so untrue
I started once to leave her but her skin was all night
white
Conscience where were you when I needed you last
night.

Conscience where were you when passion started
pushing
Where were you when she came on just right
You know I love my woman I'd never make her cry
Conscience where were you when I needed you last
night

--- Instrumental ---

I started once to leave her but her skin was all night
white
Conscience where were you when I needed you last
night.

Conscience where were you when I needed you last
night...
