(Dave Kirby - Warren Robb)

There's movie stars and caviar we're just pinto beans  
There's champagne but we're six packs all the way  
There's business suits we're cowboy boots and they've  
seen their better days  
We ain't nothin' but country boys and we like it that way.

We ain't nothin' but country boys we like it like that  
I would never be caught dead dancin' without my hat  
We can drink enough beer to overload a half-ton  
Chevrolet  
We ain't nothin' but country boys and we like it that way.

--- Instrumental ---

There's girls around in evenin' gowns but we like tight  
blue jeans  
There's water beds but we're rollin' in the hay  
There's violins but I like when the country fiddles play  
We ain't nothin' but country boys we like it that way.

We ain't nothin' but country boys and we like it like that  
I would never be caught dead dancin' without my hat  
We can drink enough beer to overload a half-ton  
Chevrolet  
We ain't nothin' but country boys and we like it that way.

We ain't nothin' but country boys we like it that way...
