"Get All Your Love Together"

Visit "[Get All Your Love Together](#)" on MotoLyrics.com

How many times did we get back together

How many times did we start all over

Think about it darling who cares who's right or wrong

Just get all your love together and come on home.

Get all your love together and come on home

We've already spent too many nights alone

Let's start forever over you know where you belong

Just get all your love together and come on home.

--- Instrumental ---

Sweetheart tonight let's try a little harder

Let's get it right or let's give it over

Darling don't keep waiting till everything is gone

Just get all your love together and come on home.

And get your sweet love all together and come on home...
