She reads all the ads in the paper each day  
And dreams about how it will be  
Taking vacations and buying new clothes  
When the hard times are over for me

She sets the table and sings in the kitchen  
Believing we'll make it some day  
And if that's all it took was believing and love  
The hard times would all go away.

When the hard times are over I'm gonna show her  
The good times she dreams of today  
She'll keep us together until things get better  
The hard times won't stand in her way.

Sometimes she gets up alone in the night  
When the kids have all fallen asleep  
And I know she cries over things they can't have  
Till the hard times are over for me.

So I'll keep on trying that's all I can do  
Taking each step as it comes  
Making the most of whatever we have  
Till the hard times are over and done.

When the hard times are over I'm gonna show her  
The good times she dreams of today  
She'll keep us together until things get better  
The hard times won't stand in her way.

She knows they'll be over some day...
