(Bobby Hicks)

Well, everything was goin' my way so I pressed my luck  
and called Moe today  
To see if he was still around  
Well, I shouldn't have answered the telephone I knew  
when I did that it was wrong  
When I found out who it was.

Well, it was just a matter of time and we're out on the  
town drinking wine  
When I saw my dream come true  
She's walkin' in the Do Drop Inn when Joe hit the brakes  
and we went in a spin  
And ended up in the parking lot.

Ah, she's a beauty she's a skag  
She's got class aw come on now that little honky tonk  
queen  
Well, Moe I've looked far and wide  
You better look again when you ain't high at that honky  
tonk queen.

--- Instrumental ---

We went inside and she was sittin' there with lovely  
make up and beautiful hair  
So I asked that gal to dance  
I tried my best to really stress that girl don't look right  
in that dress  
But you never heard a word.

Ah, she's a beauty she's a skag  
She's got class aw come on now that little honky tonk  
queen  
Well, Moe I've looked far and wide  
You better look again when you ain't high at that honky  
tonk queen.

--- Instrumental ---

As they danced he took her hand spun her around and  
pulled her in  
Then he spun her a little too hard  
And I started wondering when she said her name was  
Bill  
Then her wig came off and I's ready to kill  
That joker dressed like a female.

She's a beauty not so loud she's got style come on pal  
That little honky tonk queen  
Well Joe you've looked far and wide  
But I wanna look again Moe when I'm high  
For a honky tonk queen.

I told you Joe somethin' didn't just look right to me  
Now I've heard enough Moe  
Man you shoulda seen the look on your face  
Hey, I don't wanna hear it no more.

Yeah, you don't wanna look no more do you  
I don't wanna drink no more either  
What is that stuff you're drinkin' Joe  
How could you do somethin' like that...
