Today the midnight oil's all over someone

And those forbidden places aren't forbidden anymore

If my back door could talk it would tell me

That my borrowed Angel's been this far before

I just threw my last bottle at the jukebox

When I heard that woman sing let's go all the way

I just found out my woman is the devil

I just started hatin' cheatin' songs today

Did she sleep in your arms last nite mister  
Were you the one who gladly helped her make it  
through the nite

Did she whisper it's not love but it's not bad

Did she forget to wake you up to say goodbye  
I just threw my last bottle at the jukebox

When I heard that woman sing let's go all the way

I just found out my woman is the devil

I just started hatin' cheatin' songs today
