What in this world has come and slipped up on me
What is this crazy thing I feel
I can't believe that love is callin' my name
I can't believe it but it's real.

I think I've got a love on for you
I think my dreams are finally comin' true
Think I've took a liken to the things you say and do
I think I've got a love on for you.

--- Instrumental ---

Where did I find this wild and wonderful dream
Where did I find someone like you
What makes me love this crazy song that I sing
What makes me laugh away my blues.

I think I've got a love on for you
I think my dreams are finally comin' true
Think I've took a liken to the things you say and do
I think I've got a love on for you.

I think I've got a love on for you...
