I drove through the park Lord I searched all the bars
Where I made out with love too many times
It was always so easy to find an unhappy woman
Till I started looking for mine...

Some beer drinking devil is holding my angel
And I know what he'll do if he's my kind
It was always so easy to finds an unhappy woman
Till I started looking for mine.

--- Instrumental ---

The note on the door said I warned you before
What I'd do if you cheated one more time
It was always so easy to find an unhappy woman
Till I started looking for mine.

Some beer drinking devil is holding my angel
And I know what he'll do if he's my kind
It was always so easy to finds an unhappy woman
Till I started looking for mine.

It was always so easy to find an unhappy woman
Till I started looking for mine...
