(Merrill Lane)

Like a fool I strayed away from you dear
And the sweet taste of your love every night
But here I am I've come around to loving you don't you
see
Once again I've got your love all over me.

Once again I've got your love all over me
And time can't wash away the ecstasy
Midnight oil of love that flowed so free
Once again I've got your love all over me.

--- Instrumental ---

I know you're tired of the cheating games I used to play
And living with my rambling ways
When we turn out the lights tonight you'll find a
different man
Once again I've got your love all over me.

Once again I've got your love all over me
And time can't wash away the ecstasy
Midnight oil of love that flowed so free
Once again I've got your love all over me...
