She was a lady from the country of eleven hundred
springs
She could drink more beer than I could buy
She was a lady from the country of eleven hundred
springs
I'd get wiped out but she would never get high.

Well, when I think about it I almost she'd a tear
I know now where all my money went
She used to be a taster for a very well known beer
Well I ain't broke yet but I'm sure enough badly bent.

She was a lady from the country of eleven hundred
springs
She could drink more beer than I could buy
She was a lady from the country of eleven hundred
springs
I'd get wiped out but she would never get high.

--- Instrumental ---

Well, I done got it figured out why she's no longer there
The company couldn't stand the lose no more
She'd got too wrapped up in her work they were pulling
out their hair
It was either let her go or close the door

She was a lady from the country of eleven hundred
springs
She could drink more beer than I could buy
She was a lady from the country of eleven hundred
springs
I'd get wiped out but she would never get high.

She was a lady from the country of eleven hundred
springs
She could drink more beer than I could buy
She was a lady from the country of eleven hundred
springs
I'd get wiped out but she would never get high...
