I'll say one thing the lady's got pride.

Her smile never reaches her eyes anymore
Our friends know I've cheated and she knows the score
But she holds her head up when she's by my side
I'll say one thing the lady's got pride.

My woman keeps loving this fool
Even after the heartaches that I put her through
She'll swear that she's happy as a tear breaks inside
I'll say one thing the lady's got pride.

My woman keeps loving this fool
Even after the heartaches that I put her through
She'll swear that she's happy as a tear breaks inside
I'll say one thing the lady's got pride.

Yes, I'll say one thing the lady's got pride...
